Title	Speakers
-------	----------

Panel discussion
'How are A. Luria's ideas applied in your country?'
August 20, Thursday, 17:30-18:00

The name of Alexander Luria now is wellknown all over the world among specialists in the field of psychology, medicine, and pedagogy. His concept of the holistic nature of brain activity is in demand both in scientific research and in practical work. Speakers, experts and students of the Summer neuropsychological school will talk at a panel discussion about how Luria's ideas live and develop in their universities, research centers and clinics.

Janna M. Glzman (Moscow, Russia)
 Alfredo Ardila (Miami, United States)
 Fajruza S. Ismagilova (Yekaterinburg, Russia)
 Kaczmarek Bozydar (Lublin, Poland)

Panel discussion
'The consequences of the pandemic on the individual and society.
Risks and prospects of online learning'
August 21, Friday, 20:10-20:40

The pandemic of a new coronavirus infection provoked a rapid transition to online education in all educational institutions. In this panel discussion, participants of the School will talk about how this happened in their countries. Talk about the risks and resources of online learning from the point of view of teachers and students. And experts-neuropsychologists will give their recommendations on how to most effectively organize the educational process on the remote site.

Carla Anauate (São Paulo, Brazil)
 Elena I. Nikolaeva (Saint Petersburg, Russia)
 Theophilus Lazarus (Durban, South Africa)
 Marina V. Klimenskikh (Yekaterinburg, Russia)

Please note that all times are UTC+3 (Moscow time).
